Red Hat Enterprise Linux skills path

Key benefits of Red Hat training[1]

- 25% to 50% more efficient in completing day-to-day IT tasks

- 20% reduction in tickets generated, as well as a 32% reduction in time to remediate tickets

- Increased rate of effectiveness for new hires from 50% to 77%

We have a much tighter structure because we rely on Red Hat-trained staff. Our environment is better planned, implemented, and managed because of the level of expertise that comes from being professionally trained. We are more secure, more predictable, and get more bang for our buck because we invest in training.

– ESG study participant

Validate your Red Hat Enterprise Linux skills

Red Hat® Training and Certification offers training on Red Hat Enterprise Linux® for individuals of all experience levels. Our comprehensive Linux curriculum delivers real-world skills development, built using customer user cases and input from Red Hat's support team and field personnel.

Red Hat Certified System Administrator skills path

The first step in becoming a Red Hat Certified Engineer (RHCE®) is becoming a Red Hat Certified System Administrator (RHCSA®). To gain this certification, you can take 1 of 2 paths:

1. Skills path for Red Hat Certified System Administrator

- Red Hat Enterprise Linux® Technical Overview (RH024) – Free

- Red Hat System Administration I (RH124)

- Red Hat System Administration II (RH134)

2. Rapid skills path for Red Hat Certified System Administrator

- Red Hat Enterprise Linux Technical Overview (RH024) – Free

- RHCSA Rapid Track Course (RH199)

Both paths converge for the RHCSA exam. Certification is required to continue forward in the RHCE skills path.

Red Hat Certified System Administrator (RHCSA) exam (EX200)

Red Hat Certified Engineer skills path

Once you have received your RHCSA certification, you may progress in the skills path:

- Red Hat System Administration III: Linux Automation with Ansible® (RH294)

- RHCE exam (EX294)

Advanced Red Hat Enterprise Linux management skills

We recommend that you complete your Red Hat Certified Engineer certification before starting these advanced skills:

Red Hat Certified Specialist in Linux Diagnostics and Troubleshooting skills path

- Red Hat Enterprise Linux Diagnostics and Troubleshooting (RH342)

- Red Hat Certified Specialist in Linux Diagnostics and Troubleshooting exam (EX342)
